F	59 or below	0

## K. Course Policies

### 1. Attendance, Preparation, and Participation:

All students are expected to attend all classes. In the event of an unavoidable absence, students should notify the professor (in advance) that they will be missing class and should make arrangements to submit all assignments prior to class time. A student who

misses more than three classes (except due to the participation in scheduled college activities) should not expect a passing grade. Points for attendance and participation will be determined based on the quality of the student's participation. Students who are absent will receive no points for that week; students who arrive late or leave early will have points deducted accordingly.

## 2. Deadlines:

All course work is due on the dates assigned in the class schedule in 'H'. Students who fail to submit assignments on time will be subject to the course's late grading policy. In all other cases and unless otherwise stated by the instructor, all course work is due by 4:00 p.m. on the last day of the semester.

A grade of incomplete will only be awarded to students who cannot physically complete their course work by the last day of the semester due to an avoidable situation such as a serious illness. In such cases, students must provide valid evidence of their condition. After a semester has ended it is no longer possible to request an incomplete.

Incompletes will not be granted simply because of poor time management. Students who assume that an incomplete will be issued because they failed to finish their course work by the end of the semester will automatically receive a grade of F.

Incompletes must first be approved by the Academic Affairs office. To apply for an incomplete, students must fill out an incomplete-grade-request form and submit it to the office by December 5, 2014. After receiving approval from the office, the student must then obtain approval from his/her instructor.

## 3. Advance Assistance:

For students with documented medical or psychological disabilities, or learning disability who would like to request a special assistance, please contact the instructor or chief academic officer.

## 4. Make up work:

See #2 deadline.

6. Emergency procedures:

Please contact instructor through email phone call to the office

7. Other policies on Withdrawal and Grade Permanence, Academic Integrity, and Appeals and Grievance procedures refer to the Student Handbooks and Catalog.

**“People with integrity have firm footing, but those who follow crooked paths will slip and fall.” (Proverbs 10:9)**

All course work should be done independently without access to the work of others. Cheating and plagiarism will not be tolerated (Plagiarism is defined as the use of someone else’s ideas, arguments or other original material without acknowledging the source.) Any evidence of cheating on assignments and exams and plagiarism on research proposal will result in the student being given 0 points credit on them and may result in a **failing** grade (‘F’) for the course and further sanctions.
