

# Your Home Away From Home

Homestay accommodation for Bethesda Christian University students. Live with a welcoming American family, gain real daily practice in English, and feel at home from day one.

## WHO IT'S FOR

Homestay is more than a room. It is for students seeking a **supportive home** and a genuine cultural experience. Our team makes every match individually, and every home is personally visited and **vett**ed.

### International Students

Living with a host family accelerates your cultural transition and language skills. Connect naturally and practice English in real life.

### First-Time Students

Moving to a new country alone is a challenge. A host family provides structure, guidance, and a friendly face to help you adapt.

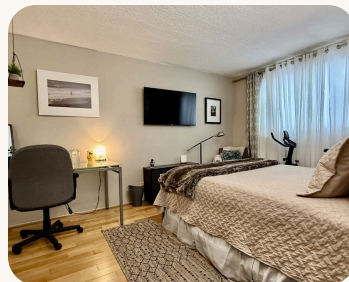

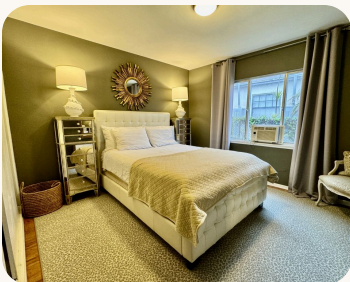

### A Real Home Base

Feel like part of a family, not just a tenant. Your host provides the everyday support you need for a successful journey during your studies.

### Affordable & Flexible

Utilities, WiFi, and light kitchen access are always included. With flexible stays and custom meal plans, homestay is a high-value option.
